STAT MEMORANDUM FOR: [REDACTED]
Domestic Networks Division New Building FPO, OC

STAT FROM: [REDACTED]
New Building Project Office, OL

SUBJECT: New Building Computer Area
Office of Communications Space Requirements

STAT REFERENCE: Memo for OL/NBPO Attn [REDACTED] fm OC/DND New Building
FPO, dtd 25 Jan 84, Subj: Revised New Building
Baseline Requirements

1. There are two spaces I need additional information on:

- a. HFG 400 sq ft vault. What type of vault is this, and what is it used for?
- b. HFG 450 sq ft storage. OC has requested a 12,000 sq ft storage area. In view of this, we feel this additional storage requirement is not necessary.

2. You make reference in your memorandum that there are offices and people workstations included in the spaces for the computer zone. I need to know how many workstations in each space, number of people in each space, and the division/branch/grade of each person. You may want to work with [REDACTED] on this question.

3. Thank you for your help on this.
